Dear Dr. Shuch:

Our Foundation Proposals Committee has completed their review of your September grant request and has declined additional funding of your project at this time citing the need to see more financial support from other sources.

Nonetheless, the Foundation is generally supportive of the project (but does have limits to its funding abilities like everybody else who took a shellacking in the stock market this year.)

To better results in 2003 for our respective organizations!

Kindest regards,

Mary E. Lau, N1VH  
Secretary  
The ARRL Foundation, Inc.
