Special SETICon02 Issue

The success of last year's *SETICon01* Technical Symposium has prompted us to expand the event to a full weekend of activities. This year's *SETICon02* Technical Symposium, Awards Banquet, Annual Meeting and Board of Trustees Meeting will all take place between 26 and 28 April 2002.

For the second year in a row, all of these events are being hosted by the Engineering Department of The College of New Jersey, Ewing Township (Trenton area) NJ. The Technical Symposium is scheduled to run from 1 PM Friday afternoon through 5 PM on Saturday. Our second annual SETI League Awards Banquet, complete with door prizes and a keynote speaker, is planned for Saturday night, 6 PM, at the Student Center of The College of New Jersey. The Banquet is once again being co-sponsored by the Trenton Student Chapter of the Institute of Electrical and Electronic Engineers (IEEE). Our Annual Meeting will commence at 10 AM on Sunday, to be followed at Noon by our annual Trustees Meeting. The SETI League, Inc. thanks member Prof. Allen Katz for securing the use of campus facilities.

This Special Issue of *SearchLites*, the quarterly newsletter of The SETI League, Inc., is devoted to *SETICon02*. It is being sent to all SETI League members in good standing, past members for whom we have valid postal addresses, and all those who attended or supported last year's Symposium. Members and interested SETI enthusiasts are encouraged to pre-register before 31 March 2001, as outlined elsewhere in this newsletter, to take advantage of early-bird savings.

SETICon01, The SETI League's first Technical Symposium, was attended by a small group of dedicated SETIzens (see below). We hope to expand the event this year to reach a much wider audience, and hope you will be able to join us. ❖

Annual Meeting Announcement

In accordance with Article IV, Section 1 of our duly approved Bylaws, as amended, the Trustees of The SETI League, Inc. hereby schedule our Eighth Annual Membership Meeting for 10 AM Eastern time on Sunday, April 28, 2002. The 2002 Annual Meeting will be preceded by a two-day SETI League Technical Symposium. Both events will be hosted by the Engineering Department of The College of New Jersey, Ewing Township (Trenton area) NJ.

As attendance by one percent of the League's membership constitutes a quorum, all members in good standing are encouraged to attend the Annual Meeting. The preliminary agenda for this meeting, per Bylaws Article XII, appears below.

Per Article IV, Section 3 our Bylaws, as amended, written notice of this Meeting is being mailed to all members in good standing, not less than ten days nor more than ninety days prior to the meeting date. Members are encouraged to submit additional New Business items for inclusion in the Agenda. Please email your proposed agenda items to n6tx@setileague.org, not later than **28 March 2002**.

Preliminary Agenda:

1. Call to Order
2. Minutes of 2001 Membership Meeting
3. Financial Report
4. Committee Reports
5. Old Business
6. New Business
7. Good and Welfare
8. Adjournment

The annual Board of Trustees Meeting required per Bylaws Article V, Section 3 will immediately follow the Membership Meeting. All SETI League members in good standing are welcome to attend. These meetings are open to all members without charge, and do *not* require Symposium registration.

Awards Banquet

The SETI League's Second Annual Awards Banquet is scheduled for 6 - 10 PM Saturday night, 27 April 2002. Banquet tickets (at \$30 each) are available only in advance. The Banquet, to be held in the Campus Center at The College of New Jersey, will include a guest speaker (listed elsewhere in this issue of *SearchLites*), and door prizes. It will culminate in the presentation of our two annual awards: the Giordano Bruno Memorial Award, The SETI League's highest technical honor, to an individual who has made significant contributions to the art and science of SETI, and the Orville N. Greene Service Award, honoring outstanding service to The SETI League.

Last year at the *SETICon01* Awards Banquet, thirty SETI-zens heard keynote speaker Peter Wright, president of the European Radio Astronomy Club, describe some of the world's great radio telescopes. We plan for an equally informative and entertaining presentation this year.

Banquet tickets may be ordered at \$30 US per person, when pre-registering for the Conference by 31 March 2002. Dress code is conference casual. As banquet seating is limited, it is unlikely that additional banquet tickets will be available at the door. ❖

Door Prizes

Through the kind support of several vendors, the door prize table at last year's SETI League Awards Banquet was filled to overflowing, and nobody went home empty-handed. We hope that present economic conditions will not deter our prize donors from being equally generous this year.

For the second year in a row, SETI League member Milan Hudecek has prevailed upon his employer, Rosetta Labs of Australia, to contribute a WinRadio receiver to be awarded as our Grand Prize. Other potential prize donors should contact SETI League executive director Dr. H. Paul Shuch at the earliest possible date. He may be reached by email to <drseti@setileague.org>. Prize donors will be acknowledged on The SETI League website, and in a future issue of *SearchLites*.

Conference Proceedings

Proceedings of SETICon01, a compendium of papers presented at last year's Technical Symposium, is already a collector's item. Don't miss out on this year's Proceedings, one copy of which is included in your *SETICon02* registration fee. Additional copies may be purchased at the Symposium, for \$20.00 US apiece. *SETICon02* presenters are reminded that a final camera-ready copy of your paper is due at SETI League headquarters by 28 February 2002.

Keynote Speaker

Astronomer and historian Steven J. Dick has kindly agreed to serve as Keynote Speaker for the SETICon02 Technical Symposium. Dr. Dick will speak on "SETI and the Post-Biological Universe" at 1 PM on Friday, 26 April 2002, at The College of New Jersey in Trenton NJ.

Steven J. Dick has worked as an astronomer and historian of science at the U. S. Naval Observatory since 1979. He obtained his B.S. in astrophysics (1971), and MA and PhD (1977) in history and philosophy of science from Indiana University. Among other publications he is author of Plurality of Worlds (1982), The Biological Universe (Cambridge University Press, 1996), and Life on Other Worlds (1998), the latter translated into four languages. He is editor of Many Worlds: The New Universe, Extraterrestrial Life and the Theological Implications (2000). He has just completed his history of the Naval Observatory, Sky and Ocean Joined: The U. S. Naval Observatory, 1830-2000.

Dr. Dick served on former Vice President Al Gore's panel to examine the societal implications of possible life in the Mars rock, and is the recipient of the NASA Group Achievement Award for helping to initiate NASA's multidisciplinary program in astrobiology. He is on the Editorial Board of several journals, including the Journal for the History of Astronomy, and is an associate editor of the new International Journal of Astrobiology. He has served as Chairman of the Historical Astronomy Division of the American Astronomical Society, and as President of the History of Astronomy Commission of the International Astronomical Union.

Banquet Speaker

We are pleased to announce the selection of distinguished astronomer Chandra Wickramasinghe as Banquet Speaker for the 2nd Annual SETI League Awards Banquet, to be held in conjunction with its upcoming SETICon02 Technical Symposium. Prof. Wickramasinghe will speak on "Why Alien Intelligence May Not Be So Alien" after the dinner, which begins at 6 PM on Saturday, 27 April, 2002 at The College of New Jersey, Trenton NJ.

Dr. Wickramasinghe has made pioneering contributions to several branches of astronomy, including the theory of cosmic dust. Jointly with the late Sir Fred Hoyle, he proposed the modern theory of cosmic life. A deep revolution in scientific thought that changes the way we view ourselves, this theory is being confirmed by the results of space exploration. The theory implies that alien intelligence may not be as alien as we once thought; ETI-human communication may therefore be reasonably easy.

Prof. Wickramasinghe holds the highest doctorate (ScD) from the University of Cambridge and an honorary doctorate from the Soka University of Tokyo. Formerly a Fellow of Jesus College Cambridge, he is now Professor of Applied Mathematics and Astronomy and head of the Centre for Astrobiology at Cardiff University of Wales. He is an award-winning poet and the author or co-author of more than 20 books and 250 scientific papers. He is a Fellow of the Royal Society of Arts and of the Royal Astronomical Society.

Lodging

The official Conference Hotel is the **Hampton Inn and Suites Newtown**, 1000 Stoney Hill Road, Yardley PA 19067. (Yardley is directly across the Delaware River from Trenton NJ.) Phone: (215) 860-1700. Fax: (215) 860-1771. Evening Hospitality Suites and various other Symposium social functions will also be held at the Hampton Inn. A block of non-smoking rooms is being held for Symposium attendees for Thursday through Saturday nights, at a rate of \$99 per night plus 8% tax. The room rate includes a full buffet breakfast. Check-in time is 3 PM, and checkout time is 12 Noon. Reservations must be made *no later than 24 March 2002*, directly with the hotel. Be sure to mention "SETI Conference" to secure the quoted room rate. For those desiring more economical lodgings, alternatives in the Trenton, NJ area include:
